3 | CHAPTER 2 – SMART NOTEBOOK BASICS

Chapter 2

SMART Notebook Basics

Using your interactive product, you can perform normal computer operations by pressing the interactive screen with your finger (on interactive whiteboards) or a tethered pen (on interactive pen displays).

Left-Clicking on the Interactive Screen

To left-click If you're using an interactive whiteboard, ensure that the pen tray tools are in the pen tray, and then press the interactive whiteboard with your finger.

OR

If you're using a Sympodium™ DT770 interactive pen display, press the **Pointer** pen tool button, and then press the interactive screen with your finger or the tethered pen.

OR

If you're using a Sympodium ID250, ID350 or ID370 interactive pen display, press the **Select** pen tool button, and then press the interactive screen with the tethered pen.

Right-Clicking on the Interactive Screen

To right-click If you're using an interactive whiteboard, press the **Right-Click** button on the pen tray, and then press the interactive whiteboard with your finger.

OR

If you're using a Sympodium DT770 interactive pen display, press the **Right-Click** function button, and then press the interactive screen with your finger or the tethered pen.

OR

If you're using a Sympodium ID250, ID350 or ID370 interactive pen display, press the **Right-Click** function button, and then press the interactive screen with the tethered pen.
